**YOUNG'S LANDSCAPE MANAGEMENT
RECEIVES 2014 AWARDS OF DISTINCTION FROM
NEW JERSEY LANDSCAPE CONTRACTORS ASSOCIATION**

January 8, 2015 – Moorestown/Lumberton, NJ – Young's Landscape Management, Inc. (Young's), a full service residential and commercial landscaping company headquartered in Southern New Jersey, is pleased to have received two Awards of Distinction from the New Jersey Landscape Contractors Association (NJLCA). Honored at the organization's 2014 Achievement Awards and Holiday Gala on December 2, 2014, Young's was recognized in the Residential \$50,000-\$100,000 Category for its Popler Residence project and the Residential \$100,000-\$200,000 Category for its Topolski Residence project.

Led by Mark DelPrato, Young's landscape designer, both projects encompassed Young's full scope of services and a complete team of landscape, hardscape and lighting professionals. The Popler project was one focused on fun and the creation of an interactive outdoor space for a father and his two young sons. Water jets and a stone fire pit area complemented the custom-built pavilion featuring a kid-friendly bar island with outdoor television. Said DelPrato, "The residence is part of an environmentally-sensitive golf course community in the Pinelands, so we had to incorporate eco-friendly elements such as bluestone, fieldstone, energy-efficient lighting and native plantings."

The Topolski project had its own unique challenges including a wetland buffer and 2-story existing deck. Yet it was the severe grade changes that required the most detailed logistical planning. In designing the outdoor space with tavern-like pavilion, pool and patio, Young's had to address a 10-foot change in elevation without the use of stairs and railings. "We used subtle transitions as a way to avoid steps and remain within Mount Laurel Township code," DelPrato explained.

The NJLCA Achievement Awards program is designed to reward landscape professionals who execute quality landscaping projects and simultaneously increase public awareness of environmental improvement and encourage landscape contractors' consistent use of quality materials and workmanship. Young's is a member of the NJLCA and supports the group's mission to advance the integrity, proficiency and continued growth of the landscape industry.

Young's Landscape Management has been on the cutting edge of the landscaping industry for more than 20 years, serving the Delaware Valley to the Jersey Shore. From landscape to hardscape design and installation, lighting accents, water features, lawn care maintenance and synthetic putting greens and lawn surfaces, Young's offers a comprehensive selection of lawn beautification products and services to create a relaxing, comfortable atmosphere for a client's home. More information is available at youngslandscape.com or by calling 856-654-5441.
